## Transportation Confirmation Form (Opt Out/In)

This form is intended to notify your child's school and Halton Student Transportation Services (HSTS) that your child, although eligible for transportation, should not be placed on a school bus.

If you intend to make alternate arrangements for your child to travel to and from **school every day, please complete this form and return it to your child's** school. The school will update their records and forward the form to HSTS. Our goal is to minimize the chance of your child being inadvertently placed on the school bus. If you plan to have your child ride the bus most of the time, there is no need to complete and return this form.
